TOGETHER INFORMATION

Doing More, Together.

A core part of our corporate philosophy

At Toshiba, we're passionate about creating a sustainable future and are always exploring new ways to reduce our environmental impact. Our commitment to the planet is evident in our environmentally conscious products and our carbon offsetting scheme, which enables us to take responsibility for our carbon emissions. By partnering with us, you can join our mission towards a low-carbon, recycling-based society and make a positive impact on the planet.

Reduce, reuse, recycle

Toshiba prioritises the sustainable use of resources. From construction innovations to material reuse and recycling, our solutions are designed with sustainability in mind. For example, we prioritize the reusability of materials by using only one type of material for plastic casings that serve a similar function. We also ensure that components made from the same type of plastic have the same colour for easy sorting during disassembly. Additionally, at least 50% of the components used in our devices of the same performance level and generation are standardized for better efficiency and sustainability.

What is Circular Economy?

A Circular Economy aims to eliminate waste and promotes the continuous use of resources. Products, components and materials should be reused, repaired, refurbished or recycled as long as possible to protect the planet's limited resources.

e-BRIDGE Next and
e-BRIDGE Plus Apps – A Perfect Team

Toshiba's own e-BRIDGE Next technology is designed to focus on your workflows, so you can focus on your business. Toshiba's range of multifunction printers is fully scalable to fit any possible need. You can easily connect and integrate our systems into your IT environment and simplify your workflows. On top of benefiting from many built-in customisation options, you can rely on our team of highly qualified experts to turn complex and time-consuming processes into simple workflows.

Embedded apps

Every company has its own ways of storing and sharing data. Good to know that all e-BRIDGE Next systems can be equipped with apps[1] to enhance efficiency in line with your workflows. Just choose the ones you need and customise your MFP to meet your individual needs and preferences.

Cloud solution apps[1]

- e-BRIDGE Plus for Box
- e-BRIDGE Plus for Dropbox™
- e-BRIDGE Plus for Google Drive™
- e-BRIDGE Plus for Google Workspace™ Google Drive™
- e-BRIDGE Plus for GMail™
- e-BRIDGE Plus for OneDrive®
- e-BRIDGE Plus for OneDrive® for Business[2]
- e-BRIDGE Plus for SharePoint® Online[2]
- e-BRIDGE Plus for Exchange Online[2]
- e-BRIDGE Plus for Universal Print[2]

Workflow solution apps[1]

- e-BRIDGE Plus for BarcodeScan
- e-BRIDGE Plus for USB Storage
- e-BRIDGE Plus for Green Information
- e-BRIDGE Plus for Zone OCR
- e-BRIDGE Plus for Voice Guidance
- e-Bridge Plus for ID Card

1) Availability of apps may vary from country to country.
2) Embedded app for Microsoft 365.

Cloud and mobile printing

The optional e-BRIDGE Plus apps give you direct access to the most popular cloud services, so you can conveniently scan and upload your documents or print them from the service of your choice. And of course, Toshiba's e-BRIDGE Next models are compatible with Universal Print from Microsoft, a Microsoft cloud service running on Microsoft Azure™.

e-BRIDGE Cloud Connect

Toshiba's remote management service e-BRIDGE CloudConnect not only maximises the uptime of your devices, but also reduces your IT workload. You can set up meter readings and toner alerts to trigger automatic delivery of supplies, freeing your employees of an administrative task so they can focus on your business. Remote maintenance is a further example – it ensures rapid assistance while reducing the need for in-person service.

A3 Colour Systems –
Upgrade Your Document Workflows

Show your true colours: sharp, vibrant images in all hues can make your documents more beautiful and engaging. Toshiba can offer you a full range of multifunctional colour devices from 20ppm up to 75ppm and A4 to A3 for all your needs, shall it be for your individual office, workgroups or medium to large sized enterprises.

Toshiba's three A3 colour series offer brilliant image quality in colour and mono that give your documents the wow-factor and leave a lasting impression with your business partners. Hard and Software can be tailored to your needs and you can make full use of all e-BRIDGE Plus apps.

Trusted Platform Module (TPM)
The TPM helps to protect against attacks. It assures that the MFP is working with trusted firmware. The credentials to unlock SSD/HDD, which are already secured by software encryption, are further protected by means of TPM (V2.0).

e-BRIDGE Next Security

Toshiba offers various options for securing your data and documents to help you meet today's increasing digital challenges.

- Access security – e.g. role-based access, card authentication*, NFC authentication*, biometrical authentication (fingerprint)*[2]

- Document security – e.g. secure PDF (digital signature, PDF/A-2b), private print, hard copy security*

- Device security – e.g. SED SSD and FIPS certified Toshiba Security HDD*, IP filtering, IPSec network protocol*, Proxy authentication for embedded web browser (EWB) and embedded apps, Transport Layer Security (TLS 1.2/1.3), Server Message Block (SMB v1/v2/v3)

*optional
[1] TPM and anti-malware function for A3 e-BRIDGE Next models only
[2] Availability varies from country to country

Anti-malware function[1]

Prevent malicious software on IT devices. Toshiba devices check against an allowed software list (whitelisting) so that no malware is executed, and users are notified if anyone tries to execute malware.

A4 Colour Systems –
Tackle Paperwork Efficiently

These remarkable multifunctional systems cover nearly all areas of your office document handling – offering print, scan, copy and fax functions. Latest technology ensures these devices can easily be integrated into your existing print fleet, and therefore help to optimise your document workflow.

Our entry level models can cover day-to-day needs of printing, copying, scanning and some also for faxing. Offering the basic features you still can enjoy and profit from the professional look of your prints due to Toshiba's high image quality throughout all series.

The higher speed systems are packed with industry-leading technology and innovations. They are systematically engineered to help workgroups connect, integrate and simplify processes.

A3 Monochrome Systems –
Highly Productive Document Handling

You can maximise your productivity by choosing the right speed for your needs, from 23 ppm up to 90 ppm in mono - from small office usage up to high volume output needs.

The modern look of our models fit into professional environments and depending on the space you have, you can flexibly pick from different sizes and options. We have a wide range of hardware options to fit your needs.

DSDF with double feed detection
As an option for the e-STUDIO6528A series or standard for our high volume e-STUDIO9029A series, this DSDF gives you the assurance that no page has been forgotten to be scanned or copied.

Technology for Every Workplace – Delivering Advanced Functionalities and Ease of Use

Today's new hybrid work environment demands that information be available and accessible from anywhere at any time for organisations to be efficient and productive. Yet it also needs to be secure.

Toshiba's cloud-ready products and our team of experts provide the solutions your business needs to improve workflows and print smarter.

Security with e-BRIDGE Next

Protecting your business data is at the top of our minds while designing our products. Depending on the product series, latest technology like self-encrypting SSD, TPM, encryption, anti-malware keep your data safe.

A4 Monochrome Systems –
For Better Business Productivity

These printers are ideal for small- and medium-sized businesses and workgroups. They can even grow with your needs, e.g. by adding additional paper sources to increase the capacity. Our compact A4 models ensure you can excel and drive your business. These multifunctional devices and printers are available in speeds from 28 up to 52 ppm.

If you are looking for powerful systems with a small footprint, search no more. And thanks to the flexible connectivity possibility of some, you can get support for mobile printing and satisfy your demands for modern business workflows.

Quick Fact
If you occasionally need to print, scan or copy in A3, use the e-STUDIO2822AM/AF A4 systems that are capable to switch to A3.

Toshiba's Carbon Zero Scheme

Reducing carbon footprint.

The impact of human activities on the global climate is becoming increasingly apparent, highlighting the need to reduce greenhouse gas emissions. One solution is carbon offsetting, which can help to balance or cancel out the amount of CO_2 released into the atmosphere by supporting environmental projects.

We not only include the CO_2 that is being emitted during the production and transportation of our products, but throughout the entire product life-cycle. Through our carbon reduction efforts and commitment to our Carbon Zero Scheme we contribute towards achieving the United Nations' Sustainable Development Goals.

Quick Fact

With today's recycling technologies, it is possible to reuse more than 95 % of the materials in a Toshiba multifunction printer.
